

# GCSE PHYSICS

1. **I HATED physics at GCSE. I never understood the theory, nor the mark scheme.**
2. **MedlyAi and practicing questions on there helped me get a GRADE 9.**
3. **The maths saved me. Practice your maths skills, converting between units etc. These are EASY MARKS.**
4. **Explain your understanding to somebody who gets the subject or your teacher and let them correct your understanding/wording.**
