

GCSE BIOLOGY

E

- 1. Everyone's number one opps are the application questions. READ the whole question before you start.**
- 2. When you get to later parts of the question- remember to come back to the info at the start. It is easy to forget.**
- 3. Use mark scheme specific language ALWAYS.**
- 4. As always there is a pattern in the type of questions they ask- do ppq and don't limit to your exam board. Try others.**
- 5. Don't lose easy marks on drawing graphs, tangents etc. Learn it once. Ace it always.**
